## September 24, 2014 Speaker

### Bob West

### CipherCloud, Inc.

Bob West joined CipherCloud after more than a decade in security leadership roles with financial and professional services organizations where he oversaw security strategy, audit and compliance and across global teams. He has held Chief Information Security Officer roles at Fifth Third Bank and Bank One, led Ernst & Young's security practice, and was a Senior Systems Officer with Citicorp. He most recently served as founder and CEO of Echelon One, a fast growing risk consulting firm.

He has also served on the advisory boards of Securent (acquired by Cisco) and TriCipher (acquired by VMWare), and as a member of RSA Security's Customer Advisory Council and the ISS Customer Advisory Council. He was also a member of the IT Sector Coordinating Council and of the International Cybercrime Subcommittee.

West is a frequent speaker on information security, cloud computing and global policy issues such as payment fraud and critical infrastructure. West is on the board of management for the Jericho Forum, and on advisory boards for Agilience, AirPatrol, CipherCloud, the Hispanic Information Technology Executive Council, and Trusteer.

**September 24, 2014 Topic**

## **Understanding and Adopting Cloud Computing**

Corporations have several significant motivators to understand and adopt cloud computing as part of their technology strategy. However, most organizations haven't taken the time to understand what cloud computing is and the security issues associated with cloud environments. This presentation will provide an overview of cloud computing, discuss strategic adoption issues, and recommendations about how to move forward in adopting cloud computing as a strategic technology asset.
