2015 Election of Officers

The officers of the Chapter must be General Members in good standing as of the date of their election and remain general members in good standing for their term of office. The two year term of office shall begin on 1 January following their election and end on 31 December at the end of the second year. These officers shall be: President, Vice President of Operations, Secretary, Vice President of Membership, Vice President of Professional Development, Vice President of Education, Vice President of Outreach and Treasurer. These officers shall constitute the Board of Directors. The President shall act as Chairperson thereof.

The Board of Directors shall be elected by popular vote; each General Member in good standing to be entitled to one vote. Except that the president shall not vote during the election. The President shall attend the counting of the vote and, in the case of a tie, the President shall cast the deciding vote to break the tie. This rule shall apply in case of all votes except for voting for the President; in this case, the VP of Operations shall not vote for the president except in the case of a tie and will then cast the deciding vote.

The Elections Committee shall consist of the Elections Committee Chairperson and one or more assistants, selected by the Board of Directors at the September meeting of each year. Members in good standing who are not running for office are eligible for and may volunteer for this function. A call for nominations will take place at the September meeting.

The term of office for all officers shall consist of two year terms commencing on January 1 following election. The President, VP Education, VP Outreach, and VP Membership will be elected in even numbered years. The VP Operations, Treasurer, Secretary, and VP Professional Development will be elected in odd numbered years

2015 Election of Officers

President – Bill Smith

The President shall be the executive head of the Chapter and shall preside at all meetings of the Chapter. The President shall have the power to call special meetings if deemed necessary for the benefit of the Chapter and shall have the deciding vote in case of tied decisions.

VP Education – Rod Zwainz

The Vice President of Education shall lead the efforts to address chapter training and certification needs within the realm of information security.

VP Outreach – Dennis Dworkowsky

The Vice President of Outreach shall be responsible to interface with the business community to recruit and maintain sponsors for the chapter. The VP of Outreach shall work with the Treasurer in the collection of sponsorship funds and tracking sponsorship accounts receivable. The VP of Outreach shall also work with the VP of Professional Development to identify and obtain speakers for the monthly meeting and Baltimore Chapter special events

VP Membership – Stephan Chan

The Vice President of Membership shall maintain sufficient membership address lists as to ensure that all members in good standing are notified of meetings, and that all other correspondence necessary to the conduct of the Chapter is received by the members. The VP Membership shall welcome new and renewing members to the chapter and send reminders to members due for renewal and whose membership has recently lapsed.

December 17, 2014 Speaker

Larry Letow

Larry Letow has over 30 years of sales, operations and finance experience in the information technology industry. Larry Letow is the CEO/President of Convergence Technology Consulting and is responsible for the vision and leadership of the organization. Prior to joining Convergence Technology Consulting, Larry served as Sr. Vice President of Infinity Consulting Group, where he held overall responsibility for expanding the corporate business in the Southeast Region, including corporate operations and marketing. Larry received his Bachelor of Arts in Government and Politics and minors in Sociology and Criminal Justice from the University of Maryland in 1983.

He is the co-founder of the National Cyber Security Hall of Fame and is a member on the Board of Directors for CyberMaryland and the State of Maryland Cyber Task Force. He is also a member of the Board of Directors of Governors Workforce Investment Board, GovConnects, Tech Council of Maryland and Baltimore Washington Corridor Chamber. He is also a member of the Board of Visitors for Towson University and University Systems of Maryland Foundation Board.

Larry was awarded the BWCC Hall of Fame in 2014 and Baltimore Washington Corridor Person of the Year in 2010. He is also involved in charitable organizations The Little Things for Cancer, Cystic Fibrosis Foundation, and Ulman Cancer Fund.

December 17, 2014 Topic

Intelligent ID

Intelligent ID is an Endpoint Management and Protection framework that protects government, military and commercial organizations from insider threats by continuously monitoring, analyzing, and alerting management in real time to potentially malicious behavior including classified data loss, misuse of credentials, workplace violence, or unauthorized infrastructure violations

Intelligent ID's lightweight agent has been designed from the ground up to have minimal endpoint impact, both in resource consumption and user experience. We operate seamlessly and non-invasively on the endpoint, causing no interruption of workflow or efficiency.

Highly customizable and flexible enough to meet the needs of any organization, Intelligent ID's framework of quickly configurable rules and compliance items allow administrators to build a set of monitoring guidelines to meet their precise needs.

November 19, 2014 Speaker Matthew J. Morris, CISSP

Matt Morris currently serves as a Cyber Security Consultant and Information Systems Security Engineer for The Van Dyke Technology Group. He has been in the information security industry for over 10 years and possesses multiple certifications to include the CISSP and CEH. His focus includes Risk Assessment, Penetration Testing, Security Architecture and Design/Security Categorization. He also presents on various topics such as Cloud Security and Security Awareness in enterprise environments to various local conferences and groups. In his spare time he hosts InfoSecSync which is a podcast for security professionals by security professionals.
