# ISSA Intl Conference 2017

## About the Conference Theme / #ISSAConf

Join us October 9-11, 2017 at the Sheraton Hotel & Marina in San Diego, California for solution oriented, proactive and innovative sessions focused on the *Digital Danger Zone*.

Each day, cyber threats become increasingly intricate and difficult to detect. Over the past year, we saw that with the rise of device connectivity came boundless opportunities for malicious hackers to attack device vulnerabilities. No cyber security professional can become an expert on these digital dangers without continued efforts to educate themselves on the industry's latest trends and technologies.

We look forward to welcoming you and over 800 of your colleagues and peers in San Diego as we discuss topics ranging from incident response to application security to business skills for the information security professional. Join us at the 2017 ISSA International Conference and we'll help you navigate the *Digital Danger Zone*.
