Please respect the speakers and other members,

Silence or turn off cell phones and electronic devices,

No video or audio recordings.

Questions are welcome; please keep them on-topic and brief. Further discussion should be taken off-line with the presenters so as to allow them the courtesy of being able to finish their presentations within the allotted time without being rushed.

Sidebar discussions should be constrained. If you must discuss something, allow your fellow members (and the presenter) the courtesy of doing so outside or on break.

September 25, 2019 Speaker

Branko S. Bokan, Department of Homeland Security

Branko Bokan is a Cybersecurity specialist with the Cybersecurity and Infrastructure Security Agency (CISA) at the Department of Homeland Security (DHS). In his role, Branko assists federal agencies to adopt the .govCAR methodology. A proud holder of all three ISC2 CISSP concentrations (ISSAP, ISSEP, ISSMP), Branko also teaches cybersecurity as an adjunct professor at a local university.

.govCAR: Threat Based Cyber Capability Review

The Cybersecurity and Infrastructure Security Agency (CISA) developed the .govCAR methodology to take a threat-based approach to cybersecurity risk management. .govCAR represents an evolution in managing cybersecurity—an advancement from the traditional consequence (compliance) and vulnerability (cyber hygiene) based approaches. This next-generation approach looks at cybersecurity capabilities the same way an adversary does to directly identify areas where mitigations should be applied for best defense. .govCAR creates opportunities for organizations to make their own threat-informed risk decisions and develop a prioritized approach to reducing risk to known threats. .govCAR is vendor agnostic and does not evaluate specific vendors or products.

The speaker will walk the audience through the concept of threat based architecture reviews and will discuss how cybersecurity threat framework and architectural cybersecurity capabilities come together to allow organizations to improve their cybersecurity posture.

August 28, 2019 Speaker

Tom Hallewell,

VP of Programs and Event for the ISSA DC Chapter

Tom Hallewell works for the Government. He's also VP of Programs for ISSA-DC. He's worked in just about every area of cybersecurity, and has the scars to prove it. Hopefully this talk will help you avoid getting them yourself. Tom Hallewell is the VP of Programs and Event for the ISSA DC Chapter

Fail Secure: 20 Ways to Undermine Your Security Program

There's policy, and then there's reality. All too often, security teams find their efforts overridden or bypassed. Here's some unconventional wisdom and tips on how to engage your stakeholders and keep your program moving forward.
