

SANS Comes to Baltimore, MD

Starting on August 29th, 2019

SEC511 : Continuous Monitoring and Security Operations

Class Promotion

Save 20% on tuition. See below for details.

SEC511: Continuous Monitoring and Security Operations No network is impenetrable, a reality that business executives and security professionals alike have to accept. Prevention is crucial, and we can't lose sight of it as the primary goal. However, a new proactive approach to security is needed to enhance the capabilities of organizations to detect threats that will inevitably slip through their defenses. **SEC511** will teach you how to strengthen your skills to undertake that proactive approach.

Who Should Attend SEC511:

- Security Architects
- Senior Security Engineers
- Technical Security Managers
- SOC Analysts, Engineers and Managers
- CND Analysts
- Individuals working to implement Continuous Diagnostics and Mitigation (CDM), Continuous Security Monitoring (CSM), or Network Security Monitoring (NSM)

SANS Mentor Program— local instruction, live interaction:

Mentor is SANS' program for learning our courseware in seven to ten-weekly group study sessions right in your home town. Mentor gives you time to absorb and master the same material commonly taught at SANS six-day conferences, with the guidance of a trained, SANS approved, network security professional. For more information on the SANS Mentor program

<http://www.sans.org/mentor/about.php>

For Additional Information and to Register:

<http://www.sans.org/event/60195>
