Copper River IT has partnered with VMware Carbon Black to deliver their popular gamified Threat Hunting Challenge in a work-from-home model.

Copper River IT cordially invites you to participate in this three-hour educational deep-dive which will allow you to gain hands-on experience threat hunting with VMware Carbon Black's latest products. Participants of all security levels can enjoy 1:1 private in-game support from VMware Carbon Black technical experts.

During this event you will:
•Learn how to find attacks used in actual incidents
•Advance your skills with the latest Threat knowledge
•Get hands-on with VMware Carbon Black Cloud and discover why real-time device assessment and remediation are key for a remote workforce
•Talk to experts individually about how to uplift your organization's SecOps strategy
•Earn a certificate of completion worth 3 CPE Credits

ISSA 2021 Meetings and Events

Date	Speaker	Organization	Topic
January 27, 2021	Brian Donahou	Red Canary	Atomic Red Team and the Red Canary Threat Detection Report
February 24, 2021	Michael Bain	Unallocated Spaces	Lockpicking 101
March 24, 2021	Avi Rubin	JHU Information Security Institute	Medical Device Security
April 28, 2021	Thomas Byrd	T Rowe Price	Cybersecurity Preparedness and Operational Resiliency
May 11, 2021	Johnathon and Sean	Copper River/VMware	Cloud Security IoT
May 26, 2021	Jennifer Dickens	NOAA	
June 23, 2021	Amber Schroder	Paraben	Securing your Smartphones
July 28, 2021	Mike Raggio	Cloudknox	Cloud Infrastructure Cyber Kill Chain - Threats & Countermeasures

February 24, 2021

Michael “Flay” Bain, Unallocated Space

Flay is a past President of Unallocated Spaces. Unallocated Space is a technology-based community center, based out of a 1600+ SF space located in Severn, MD. He has been lockpicking for years and was the 2 time winner of the GrrCon ‘Cage of shame’ lockpicking challenge. He thinks its great fun and is excited to be able to encourage others in the hobby.

February 24, 2021

Lockpicking 101

The session will begin with a 15 presentation on primer on the pin picking (SPP) of pin and tumbler locks following by a 30-minute demonstration/interactive session. Participants are welcomed to purchase equipment to work along with the instructor. The simplest options to get are Number 3 Masterlocks:

Brian Donohue, Red Canary

Brian has been writing about and researching information security for the last decade. He started his career as a journalist covering security and privacy. He later consulted as a threat intelligence analyst, researching adversaries and techniques for a variety of major banks, retailers, and manufacturers. At Red Canary, Brian helps guide research publication and technical messaging efforts.

Simulating Adversary Tradecraft with Atomic Red Team and the Red Canary Threat Detection Report

We plan to discuss two important resources that leading teams are using to improve their security:

- 2020 Threat Detection Report: Red Canary's annual in-depth analysis of of the top techniques for tens of thousands of threats seen in the wild. For each technique, we include detection, prevention, and testing strategies.
- Atomic Red Team: An open-source tool mapped to ATT&CK techniques valuable for benignly simulating specific adversary behaviors.
