January 12, 2022 @ 9:00 am - 5:00 pm EST

This one-day workshop is a complete guide to dark web investigations. Students will learn the technical issues of the dark web, and will be given a thorough tour of the dark web. Students will also be taught specific investigative techniques with examples for a wide range of investigative needs. This training is useful for any forensic investigator, but is particularly interesting to those trying to trace data leaks, financial crimes, and related crimes.

Sponsored by EC Council and ISSA Central MD
CPE's Available, Class will be held Virtually

January 26, 2022

Origin and Mission of the ICAC Task Force

The presentation will explain the origin and mission of the ICAC Task Force. We will discuss the many ways our children can find themselves in trouble on the internet, such as, loss of privacy, exposure to graphic content both from imagery and online games. We will touch on the subject of our children creating and sharing CSAM (Child Sexual Abuse Material, also referred to as child pornography) and how this can create a lifelong problem for our children. We will also talk about the dangers of Online Predators and how a child's need to feel they belong, put them at risk Human Trafficking.

Alex Attumalil

Global Cyber Security Leader at Under Armour

Mr. Attumalil is a technology leader with 21 years of experience, developing and leading information security programs and global cyber operations teams. In this role, he has built great teams, empowered to deliver technical cyber risk mitigations, and aspires to increased accountability and ownership. His transformational vision drives risk-centric policies and innovative proactive mitigations, while his strong business acumen propels frictionless deployment of strategic global initiatives. Further, his cross-functional efforts to build consensus among leaders have allowed projects to be delivered on schedule and within budget. Mr. Attumalil builds strong, performance-focused partnerships with his technology providers, motivating them to improve their product offerings, thus driving business value to the partners and their customers. He is an active participant in customer advisory boards and technology conferences where he shares his vision and builds consensus to drive solutions for a secure enterprise.
