The Convergence of Digital and Physical Security

START DATE: 2/1/2022

START TIME: 11:00 AM EST

DURATION: 45 MINUTES

ABSTRACT:

Managing risk under one unified platform results in streamlined communications and response, faster remediation of disruptions, and ultimately, reduced impact to business continuity. Whether your employees are working from home, in the office, or in a hybrid environment, it's more important than ever to prioritize resilience via situational and operational intelligence.

Featuring Tracy Reinhold, CSO of Everbridge with over 20 years' experience in the FBI, and Eric Yunag, VP of Technology and Innovation at Converjint with over 20 years' experience in security integration, join this conversational panel to learn:

How to quickly identify and act on all threat vectors to produce a reduced risk gap

- Ways to break down siloed response activity for optimal resilience
- Best practices to build a robust risk platform for success, including analysis of past performance
- What to look for in a technology that will facilitate and automate your response needs

Stephanie Neely, Defense Information Systems Agency

Stephanie Neely has 27 years of experience in cybersecurity and cyber operations. She has worked both sides of the fence as an ISSM to NOCs and SOC's.. Currently she leads a team to ensure the Department of Defense Information Networks (DODIN) are postured through unified actions that deliver the successful evolution of modernized technology solutions. Currently we are working on defining zero trust minimum capability standards for the DODIN and will be performing risk assessments against each DAO's architecture.

Emerging Technologies, Existing Policies and Architectures

This presentation we will discuss current architectures and policies and how its hard to match the speed of change. That the coalition of the willing can create change through sharing and leveraging the grassroots of organizations and drive up consistencies in leveraging what you have to meet new constructs and open a discussion on what policies are required.

Origin and Mission of the ICAC Task Force

The presentation will explain the origin and mission of the Internet Crimes Against Children (ICAC) Task Force. We will discuss the many ways our children can find themselves in trouble on the internet, such as, loss of privacy, exposure to graphic content both from imagery and online games. We will touch on the subject of our children creating and sharing CSAM (Child Sexual Abuse Material, also referred to as child pornography) and how this can create a lifelong problem for our children. We will also talk about the dangers of Online Predators and how a child's need to feel they belong, put them at risk Human Trafficking.
