Vice President of Professional Development Current term thru December 2027

The VP of Professional Development will recommend, initiate, and oversee programs for professional development within the area of Information Security to include monthly meetings, security conferences/seminars, and interaction with peer organizations. The VP of Professional Development will work with the VP of Outreach to schedule any speakers identified by that officer during that officer's outreach duties.

CISSP Study Group

Norseman Defense Technologies | 10981 Guilford Rd | Annapolis Junction, MD 20701

Each Tuesday at 5:00 PM -8:00 PM (EST), September 01, 2026 - December 08, 2026 (skips 3 Nov 26)

Why attend?

Gain credibility as a security expert.

Become a more marketable/hirable candidate.

Become/remain contractually compliant (DoD 8570.01 Manual / DoDD 8140)

Improve IT security skills and enhancing productivity.

Save money over “boot camp” style courses.

Our Study Group fosters a learning environment to better absorb and understand the material.

Our approach simply makes the information more useful and easier to interpret!

You can attend each session in-person in Annapolis Junction MD, or attend virtually on line. Your choice.

Meals are included each night for in-person sessions

Bonus: Pass your exam within 6 months; get a free year of ISSA membership on us!

Cost: just \$450

ISSA Senior Members

ISSA recognizes members who have been with the organization for at least five consecutive years and have demonstrated at least 8 years of relevant cybersecurity experience.

Senior Member status is the first step towards fellowship and requires at least 5 years of membership.

More about [ISSA Fellows Program](https://issa.org/fellows-program) (<https://issa.org/fellows-program>). Senior Members are:

- invited to our awards gala event to be recognized in the year that they become a senior member
- listed on our website as recognized senior members of the organization
- recognized as eligible to become a Fellow of ISSA in the future.

Senior Member Qualifications

- 5 years of ISSA membership
- 8 years of relevant professional experience

ISSA Fellows Program

The ISSA Fellows Program formally recognizes significant contributions to the cyber community, cyber profession, ISSA leadership and sustained ISSA membership. The elite status of Distinguished Fellow designation is limited to only 1% of ISSA members and Fellow status is limited to 2% of the ISSA membership.

Fellow Qualifications

- 8 years of association membership
- 12 person-years of relevant professional experience
- 3 years of volunteer leadership in the association
- 5 years of significant performance in the profession such as substantial job responsibilities in leading a team or project, performing research with some measure of success or faculty developing and teaching courses

Distinguished Fellow Qualifications

- 12 years of association membership
- 16 person-years of relevant professional experience
- 5 years of sustained volunteer leadership in the association
- 10 years of documented exceptional service to the security community and a significant contribution to security posture or capability

ISSA + INFOSEC

Welcome, ISSA members

As a member of the Information Systems Security Association (ISSA), you are part of an elite community of cybersecurity professionals committed to advancing the industry. At Infosec, we share ISSA's commitment to promoting a more secure digital world through education, collaboration, and professional development.

We proudly offer exclusive discounts on our security training solutions and services to ISSA members. This special partnership reflects our shared dedication to empowering security professionals and strengthening organizations' cyber defenses.

ISSA members are eligible for a discount on Infosec's training offerings. ISSA non-member subscribers are also eligible for discounts. Use your code during checkout or share with your rep to receive your discount.

Solutions Engineer at Cisco

Matt Leuschner is a Solutions Engineer at Cisco, where he has been helping customers transform their networks and embrace technology since 2019. With 23 years of experience across networking, automation and coding, high performance computing, virtualization, and desktop services, Matt brings a broad and practical perspective to solving technical challenges. He is passionate about technology, enjoys collaborating with others, and is always eager to share knowledge and innovative ideas. Matt has also developed several training sessions, as well as step-by-step hands-on labs, to help demonstrate the value of network automation through network simulation.

Feel free to reach out to Matt with questions, if you need advice, or want to learn more about his latest projects. Outside of work, Matt likes to spend time with his wife, Stephanie, and their Old English Sheepdog, Samantha. He's also a member of the Charm City Ghostbusters, where you might spot him cruising Maryland in a replica Ecto-1, asking "Who are you going to call?"

Topic: The Evolution of Network Engineering

What has changed in network engineering since the adoption of the Ethernet standard in 1983? No matter your role on the network, a lot has changed since 1983. Modern networks support faster speeds, greater data volume, enhanced security, and with that the expanded domain knowledge required of a network engineer. But even as network technology has evolved, we can find familiarity in the networks we operate. Ethernet is still predominant but faster, we still move packets and frames, TCP and UDP control our transport, and the network still connects our applications and services. This presentation looks at how the network and the role of the network engineer has evolved, the skills necessary for network engineers, and how AI and LLMs can up-skill and be a force multiplier.

Dr. Baljeet Malhotra, CEO/ Founder TeejLab

Dr. Baljeet Malhotra is an award-winning researcher and a global tech leader known for his work in Open Source and API Risk Management. He founded TeejLab in 2019 and steered the team to build API Discovery and Security™, world's first end-to-end API Risk Management platform. Prior to TeejLab, he established the R&D unit of Black Duck Software in 2016 (acquired by Synopsys for \$565 million). He also served as Research Director at SAP and Senior Software Engineer at MahindraTech.

Dr. Malhotra received a PhD in Computing Science from the University of Alberta and a Post-Doctoral from the National University of Singapore. He won several awards including NSERC (Canada) scholar and Global Young Scientist (Singapore). He concurrently held Adjunct Professor positions at the Universities of British Columbia, Victoria, Northern BC and NYIT. He has given numerous ISACA, ISSA, IIA, ISC2, OWASP talks globally, and published several papers and patents at international venues.

Topic: The API Security Blueprint – From Basics to Advanced Defense

Led by Dr. Baljeet Malhotra, an internationally recognized expert in API Discovery, Security and Governance, this presentation will be focused on understanding and implementing robust API security programs. Participants will start with the foundational principles of API security, including authentication, authorization, and data protection. The presentation will then progress to advanced strategies, such as securing API gateways, preventing common vulnerabilities like injection attacks, and leveraging tools for monitoring and threat detection
